

Sambit Samantaray | Product Manager | B2B/B2C SaaS, Q2C/O2C, AI Agents, Fintech, PropTech

Hyderabad, India | Phone: 9114290430 | Email: sambit.samantaray2000@gmail.com | [LinkedIn](#)

Product Manager | [HighRadius, Collections Product](#) | Feb 2025 - Present | Hyderabad | Fintech B2B SaaS, AI Agents for office of the CFO

- Shipped AI agents for Autonomous Collections resulting in a 50% FTE Reduction through autonomous [Prioritization and Work Allocation](#)
- Integrated Lovable as an orchestration layer for Consultants reducing configuration and setup timelines by 30% - Auto Consulting Agents
- Own product roadmap and execution for the HighRadius Collections product, a cloud based enterprise AR platform used by 370+ customers and 4,000+ collectors.
- Co authored and finalized the 2025 and 2026 Collections roadmap with the Product VP and CPO, aligning on an AI first strategy for partner facing modules, analytics and automation, responsible for championing Claude Code and Workflows in the PM Org.
- Led 20+ day in the life studies with customers to map current collections and dispute workflows, identify gaps, and prioritize automation and platform improvements.
- Collaborated with multiple cross product teams to integrate the in-house no code data pipeline and analytics platform "[LiveCube](#)" into the AR suite, solving 200+ custom reporting tasks and launching 5 new enterprise SaaS products adopted by 14 clients, adding over 300k USD ARR.
- Shipped a data driven [AI worklist prioritization model and Personalized Worklists](#), increasing collection efficiency by 30% for 4,000+ users.
- Proposed a proprietary, patent pending Markov chain based Collections Worklist Engine that analyzes 1M+ invoice interactions to compute expected dollar per minute impact scores, projected to reduce manual prioritization time by 60% and increase recovery rate by 20%.
- Presented and led a migration plan for 400+ customers from legacy UI to a modern React based experience and designed a user bandwidth based task prioritization algorithm that increased collector productivity by 40%.

Associate Product Manager (Solutions Expert 2) | [Fello](#) | Aug 2024 - Jan 2025 | Bengaluru | PropTech B2B/B2C SaaS, CRM Integrations

- Product lead for CRM and workflow automation in a US real estate platform used by independent agents and teams, focusing on activation, retention and partner integrations.
- Delivered 20+ API based CRM integrations (HubSpot, FollowUpBoss, KV Core, BoomTown, Lofty and others), working closely with partner technical teams to define data contracts, authentication and error handling.
- Built a strategic partnership with KW Command CRM and API Nation, retaining 20 at risk clients and protecting 2.4M USD ARR through joint integration roadmaps and migration plans.
- Reduced onboarding timelines by 20% (from 10 to 8 days) via automated task workflows, onboarding dashboards and self setup wizards.
- Launched [Lead Segments](#) and [Workflow Automation](#) features to automatically categorize and route leads, improving agent productivity by 35% and saving roughly 3 hours per day.
- Shipped a Cash Offer and one click quote feature that connected pricing logic, lead data and partner systems to generate offers in seconds.
- Designed an in app currency model, tightly integrated with subscription plans and in app actions, driving a 30x increase in add on purchases.
- Set up a dynamic environment using Google Analytics and Tag Manager so consultants could simulate customer journeys and debug issues without engineering involvement.

Associate Product Manager | [HighRadius, RadiusOne AR Suite](#) | Apr 2020 - Jun 2024 | Hyderabad | 0-100 SMB Product Suite, Workflows

- Co built the [RadiusOne AR suite](#), a net new SMB focused O2C and Q2C SaaS product line; identified a 1B USD addressable market in SMB accounts receivable and onboarded 20+ clients contributing 9M USD ARR.
- Collaborated with cross product teams to add direct Google Workspace integration into the product, cutting in app email inbox setup from 5 to 7 days to a one click self serve flow.
- Streamlined [product editions](#) and configuration journeys, reducing back end configuration steps from 60% to 10% and shrinking overall customer onboarding time by 50% (from 4 months to 2 months).
- Investigated usage across 2,000+ users and 270+ Fortune 500 clients to identify key adoption blockers; defined problem statements and solution theses for low usage modules.
- Shipped [Tags and Workflows](#), enabling flexible segmentation and automation. Users have created over 200k tags and applied them 20M times to date, significantly improving workflow configurability.
- Improved Collections app adoption by 35% across 370 clients and 3,600+ users (from 2.5 to 3.4 hours per user per day) and raised product NPS by 80% year over year (from 21 in 2023 to 38 in 2024).
- Led sprint planning for the largest engineering pod, overseeing a multi year transition of the HighRadius AR product suite from Ext JS to React, shipping 10+ features and mitigating 1,000+ bugs.
- Authored and finalized the 2024 product roadmap for the [AI Prioritized Worklist module](#), aligning engineering, services and leadership on scope and timeline.

ENTREPRENEURIAL EXPERIENCE

Co Founder | [ShrayArchy](#) | 2017 - Present

- Co built a handmade clay charms and social media brand focused on design aesthetics and cozy lifestyle content, with 40k+ followers, 1M+ monthly viewership and approximately 2k USD monthly revenue.
- Own end to end product lifecycle for physical and digital products, including concepting, pricing, packaging, inventory planning, partner selection and launch planning.
- Run experiments across Instagram, YouTube and Shopify on content formats, drops, incentives and bundles to improve conversion, repeat purchases and community engagement.
